"Well, I am proud of it," she said, "and proudest of all of my stove. It's a New Perfection Oil Cook-stove, and I think they are the best in the world. They toast, roast, broil and bake equally well-really to perfectionand the kitchen stays much cooler and cleaner than with any other range. This stove cuts my kitchen work almost in half."

There is no wood or coal to carry for a New Perfection; no ashes to clean up. It is ready for use as soon as lit; out at a touch of the fingers—economical as well as quick and convenient.
